

Biology Seminar 2/8/17 Elif Karagoz

what?

- ↳ Look up RNase and kinase (Endoplasmic reticulum)
- ↳ Protein-folding chaperones (IREF)
- ↳ "yeast & mammals"
- ↳ What the fuck are "tiling arrays"?
- ↳ 18 minutes in, already feeling lost, experiments suck
- ↳ I like this woman. She's odd.
- ↳ I'm surprised this woman is still a post doc. She's pretty smart and seems to have done some good work. Not that I can really judge that.
- ↳ Speaking so fast at the end that she was literally out of breath.
